

## CIFIC SLOPE. Happenings Along the Coast.

MAN KILLS  
NEIGHBOR LAD.

Two Wires and  
the Shot.

With Murder in the  
First Degree.

Washington Fam-  
ily Fully.

SALEM (Or.) Aug. 11.—[Exclusive  
Dispatch.] James E. Sullivan, 40  
years old, was shot and killed by  
his neighbor, John J. Sullivan, 46  
years old, at the home of the latter  
on the corner of Washington and  
Main streets, at 10 o'clock today.

The shot that killed  
Sullivan was fired through a farm  
gate.

Sullivan, mother of Mr.  
Sullivan, was in the kitchen at the  
time the shot was fired. She was  
alone at the time.

When the shot was fired,  
Sullivan was in the kitchen. She  
was alone at the time.

YOUNG WOMAN  
SEEKS DEATH.

Drinks Vial of Chloroform  
to End Troubles.

Penniless, Physician Refuses  
Treatment.

Recovers; Tells of Brutalities  
of Husband.

[BY DIRECT WIRE TO THE TIMES.]  
PORTLAND (Or.) Aug. 11.—[Exclusive  
Dispatch.] A young woman, 18 years old,  
attempted to commit suicide early  
this morning in the Albany Hotel, by  
drinking the contents of a small vial  
of chloroform. After physician had  
given temporary restoratives he re-  
fused further treatment because the  
woman was penniless.

Policeman Herman Olmer learned of  
her plight, and after consulting with  
the health authorities, had her taken to  
St. Vincent's Hospital in the Holman  
ambulance. It is believed that she  
will recover.

The woman told a pitiful story of  
privations and hardships that have  
come to her since her marriage two  
years ago to John Rudy, a policeman

employed by the Federal government  
in the canal zone. She asserts that  
her mother, Mrs. Henry Ross of No.  
2521 Stafford street, Pittsburgh, forced  
her to marry Rudy, although she did  
not care for him, and objected.

Shortly after the nuptials she ac-  
companied Rudy to Panama. After a  
few months he developed, unexpectedly,  
an appetite for drink. He quar-  
tered his own money and his wife's in  
vicious living, and was finally dis-  
missed from the government service.

The couple then came north, and  
Rudy took a homestead in Eastern  
Oregon. His young wife declares he  
continued to mistreat her, and finally  
she left him, came to Portland, and  
tried to end her trouble in death.

UNCLE SAM PAYS OLD DEBT.  
Portland Man Gets Twelve Dollars He  
Overpaid the Government While  
Postmaster in 1867.

[BY DIRECT WIRE TO THE TIMES.]  
PORTLAND (Or.) Aug. 11.—[Exclusive  
Dispatch.] J. W. Range, an Alaska  
miner, visiting here, yesterday re-  
ceived a check for \$12 due him when he  
resigned a postmastership at Mill Vil-  
lage, Pa., in the fall of 1867. Although  
the government has had the use of this  
\$12 for forty-two years, Range is al-  
lowed no interest.

At 6 per cent, an average legal rate  
of interest in the United States, the  
principal and compound interest  
would amount to \$128.00. In other  
words, Uncle Sam made \$116.00 on the  
\$12 that belonged to Range.

"I served three years in the war,"  
said Range, "and when I returned  
home my friends at Mill Village wanted  
to do something for me, so they had me  
appointed postmaster. I resigned  
less than a year, and came West."

"About five years ago I received a  
letter from an attorney in Washington  
advising me that I had a good claim  
against the government for \$12, and  
that he would collect it for one-third

of the amount. I agreed. I think the  
claim was for over-payment of post-  
age stamps. I got the check signed  
by Secretary MacVane today, and  
had to send the attorney \$4 for col-  
lecting the sum."

RED MEN CONVENE.  
HEALDSBURG ENTERTAINS.  
HEALDSBURG (Cal.) Aug. 11.—One  
thousand members of the Pocombs  
lodges of the Improved Order of Red  
Men, now in convention at Santa  
Rosa, were the guests of this city  
today. Mayor J. W. Rose extended a  
welcome to the delegates, and Henry  
C. Giesford, Grand Sachem of the  
Red Men, responded. Following an  
automobile tour of the city and the  
adjacent country, the visitors were  
taken boating on the Russian River.  
The city was lighted with thousands  
of incandescent bulbs in the evening.  
After a banquet in Red Men Hall, a  
grand ball was given and a grand  
concert in the Plaza was enjoyed.

SLOPE BRIEFS.  
New Maids for the South Dakota.  
SAN FRANCISCO, Aug. 11.—The ar-  
mored cruiser South Dakota, after com-  
pleting her target practice at Monterey,  
anchored in this harbor late today.  
After reporting to Rear Admiral Har-  
ber, who is here with the flagship  
California, the South Dakota will pro-  
ceed to the Mare Island Navy Yard,  
where she will be overhauled and pro-  
vided with cage masts.

Man Meets Awful Death.  
CHINESE CAMP (Cal.) Aug. 11.—  
Dragged from his place in the boat  
basket by a loose cable, G. Morales,  
a miner, was hurled down the shaft of  
the Eagle Shammut mine today to a  
level 20 feet below, and instantly  
killed. His body was terribly man-  
gled.

signs; all colors; full yard wide. 35c quality today

## ENVOYS COME FROM MADRID.

Will Be Received at State Department Today.

Here to Negotiate Peace for Nicaragua.

Present Credentials; Three Letters in Spanish.

(Associated Press Night Report.)

WASHINGTON, Aug. 11.—(Exclusive Dispatch.)—The envoys sent to this government by Dr. Madrid to negotiate peace in Nicaragua, will be received at the State Department tomorrow morning. The commissioners will be received on the same footing as have the representatives of both factions since the trouble began. They both called at the State Department today and presented their credentials. Three letters in Spanish, addressed to Secretary Knox, also were presented.

These were turned over to the translators. The contents are not known. Barrios and Salinas were received by an attaché of the Latin-American division, who assured them they would later be received for an audience with the same commission. They were shown to Dr. Castillo, the Estrada representative, and Señor Don Luis Corea, who had previously represented Madrid.

Both the envoys declined to say whether the letters they presented contained any peace proposals. They reported to await request from the State Department for their presence.

## HINDU INVASION ALARMS.

Cable Announces Policy of Increased Restrictions as Regards Immigration of Undesirable Class.

(By Direct Wire to the Times.)

WASHINGTON (D. C.) Aug. 11.—(Exclusive Dispatch.)—Assistant Secretary Benjamin S. Cable, speaking for the Commerce and Labor Department today, announced a policy of increased restrictions as regards the immigration of Hindus, and so emphasized his attitude that he seemed to regret that he had not power to enact an absolute exclusion law forthwith.

The report from Calcutta of an influx to the Pacific Coast, occasioned by widespread reports that America was the "good land" and that there might be a chance to get on the police force, prompted the Assistant Secretary to declare that it was about time the costs involved in the import of such a threatened invasion. Cable feels himself on safe ground, so far as international relations are concerned, for he needs but point to the attitude of the Canadian government toward the fellow subjects of the British empire. He expresses concern about the requirements of migratory labor of the various harvests in the West, but the problem of farmers and the railroads, he well knows, must be solved by other means than a resort to immigration of the very undesirable East Indians. The department can only enforce the laws on the statute books and cannot stop the immigration. It can, however, apply measures of restriction with broader construction of the law than generally obtains, and if a Hindu flood comes it will, in large part, be halted.

## PLANS FOR SEAL FARM.

ONE ON PACIFIC COAST.

(By Direct Wire to the Times.)

WASHINGTON (D. C.) Aug. 11.—(Exclusive Dispatch.)—If everything goes right twenty cub seals will be brought down from the Pribilof Islands and a seal farm established on the Pacific Coast by the Bureau of Fisheries. Hopes are entertained that the seal will adapt itself to the temperature of the temperate zone, and that important aid can be given in maintaining the species. The government agents at the islands have finished by this time the killing of several thousand surplus bull seals, that take no part in propagation, but no word has yet been received here of how many were slain.

## BOAT FIRE CAUSES STRIF.

Chicagoans Are Alarmed Until Fire Marshal Reports Fire Coming Into Port on Own Steam.

(Associated Press Night Report.)

CHICAGO, Aug. 11.—(Exclusive Dispatch.)—Widespread consternation prevailed in the shipping and excursion-boat district for three hours today, due to wireless reports that a ship was burning twenty miles northeast of Chicago.

Friends and relatives of the thousands of persons thought to be on excursion trips kept the telephone lines, newspaper, steamship offices and the wireless companies busy by inquiries. Before the truth was ascertained every boat running out of Chicago on the Chicago-Saugatuck line, where the fire was reported, had been accounted for as safe. The big steamers equipped with wireless all received reports to look out for a burning vessel, and all changed their courses for the purpose of rendering assistance.

After three hours of excitement the first authentic news was received through Fire Chief Horan of the Chicago fire department. The marshal reported that the ship about which there had been so much concern was proceeding under her own steam for Chicago.

## DREXEL SCORES HIT.

Young American's Daring Air Stunt Is the Feature of Evening Aviation Meeting.

(By Direct Wire to the Times.)

LONDON, Aug. 11.—(Exclusive Dispatch.)—The sensation of the Lankar aviation meeting Thursday was the performance of young Drexel. He did several daring things during the day, and at 7 in the evening ascended for the altitude contest.

He shot up into a bank of clouds and completely disappeared at a height, when last seen, of 4000 feet. Spectators strained their eyes to see him descending, and as time passed the greatest anxiety prevailed, especially as it was known he had only petrol enough for a half hour's flight. The terrible possibilities were apparent to everybody.

After nearly an hour other air men went in search of him, and motorists poured the country. At length, after another hour had gone by, a telegram was received from him saying he had landed safely at a farm house twelve miles from the meeting place.

## DEPENDS ARMY CANTEN.

Rev. Father George J. Waring, Army Chaplain, Addresses Convention Catholic Abstinence Union.

(Associated Press Night Report.)

BOSTON, Aug. 11.—Although he did not directly advocate the reestablishment of the army canteen, Rev. Father George J. Waring, chaplain of the Eleventh Cavalry, U.S.A., in an address before the national convention of the Catholic Total Abstinence Union today, implied that its abolition was a mistake.

Father Waring declared the soldier was driven to drink largely by the fact that he was practically barred from high-class restaurants and refreshments. He added:

"He has been deprived of a canteen where he was accustomed to get a glass of pure beer without going away from his home, and where he could neither meet bad company, nor drink to excess. He is shunned by all respectable people. His self-respect is crushed within him, and he naturally enters the only open door—that of the saloon."

Rev. Father Walter J. Shalley of Danbury, Ct., former president of the union, advocated political activity on the part of the members of the union to secure more drastic laws against the liquor traffic, and to combat the political work of the liquor interests.

## DIPLOMATIC.

COL. ASTOR OFF FOR A CRUISE.

HIS FORMER WIFE TO VISIT BROTHER AT NEWPORT.

(By Direct Wire to the Times.)

NEWPORT (R. I.) Aug. 11.—(Exclusive Dispatch.)—Col. John Jacob Astor has decided to relieve an extremely embarrassing situation, which threatens to divide society into factions and cause much bitter feeling. When the colonel learned that his former wife, Mrs. Ava Willing Astor, was coming to Newport on August 20 he quietly made arrangements to leave Beechwood, his villa here, for a cruise on his yacht Norma. He will take his departure on the previous day, the 19th, and remain away until Mrs. Astor finishes her visit with her brother, J. R. Barton Willing.

When Mrs. Astor sailed from England for New York a couple of weeks ago it was reported that she would come to Newport immediately, and this started rumors that there might be reconciliation between Col. Astor and herself. Weight was added to the rumor when her son, Vincent, who is the constant companion of his father, went to New York with the colonel's yacht to welcome her and her sister, Alice.

But Mrs. Astor remained in New York at the Gotham until this morning when Vincent returned to Newport on the Norma with Mr. and Mrs. Ogden Mills, the Countess of Granville, Mrs. Cavendish-Bentinck, Mrs. Maturin Livingston, who had been ill in London for several weeks and had to be carried from the boat to the Norma on stretchers.

Mrs. Astor on Saturday went to the Whitney residence in the Adirondacks, where she remained until Monday, when she went to Spilled Lake. She is now the guest there of Mr. and Mrs. Lewis S. Thompson.

## TOWARD IDENTIFICATION.

Police of London Make Discoveries of Importance Regarding Crime Charged to Dr. Crippen.

(Associated Press Night Report.)

LONDON, Aug. 11.—It is reported today that the authorities have discovered a clue to the identity of the body unearthed in the Hill Drop Crescent home of Dr. Hawley H. Crippen, now under arrest in Quebec, awaiting extradition on the charge of having murdered an unnamed woman.

The police have contended all along that the pieces of flesh were parts of the body of Belle Elmore, the actress wife of Dr. Crippen, but their identification as such has been a matter of much doubt. It is generally believed that the case of the crown rests upon a positive identification, and the fact that importance is attached to the latest developments.

The hopeful clue was obtained during an exhaustive examination of the body made by Prof. Pepper, the home office expert, who had previously given many hours to the problem.

During the five hours that he worked, Prof. Pepper obtained conclusive evidence that the sex was feminine. He then continued, with the purpose of finding the manner of death, having in mind the possibility that poison was used.

The analysis, so far as the poison theory is concerned, was not completed today, but it was reported that the physician found evidence that at some period the woman had undergone a surgical operation. If this can be established, the authorities claim they will have gone a long way toward proving that the victim was Belle Elmore. The inquiry will be resumed on Monday.

## GOVERNOR SIGNS PARDON.

Yuba Man Is Freed from Life Term for Murder—Two Sentences Are Commuted.

(Associated Press Night Report.)

SACRAMENTO, Aug. 11.—William R. Lane, who was sentenced in the Superior Court of Yuba county in 1915 to serve a life term for murder in the first degree, was given a full pardon today by Gov. Gillett, who stated in his pardon that Lane, who was released on parole in August, 1924, has behaved in an exemplary manner and shows every indication of leading an upright life.

Lane had been confined for more than twelve years in San Quentin. The pardon by Gov. Gillett, who stated in his pardon that Lane, who was released on parole in August, 1924, has behaved in an exemplary manner and shows every indication of leading an upright life.

NEAR-PANIC BY MISTAKE. (Associated Press Night Report.) CHICAGO, Aug. 11.—A paralyzing wireless message indicating that a ship was on fire in the lake some distance from Chicago created much excitement in Chicago today, especially among visiting Knights Templar. A harmless inquiry sent by wireless from the excursion steamer Christopher Columbus, with 2000 passengers, mostly wives and daughters of visiting Knights on board, started the trouble. The captain of the Columbus had noticed smoke, and asked the steamship Grandhaven if it had noticed anything unusual. As the rumor grew, it presently embraced the Columbus itself and newspaper telephones were kept hot with inquiries of visitors whose women folks had gone on the excursion. It was not until the fact that all boats could be accounted for and the message rectified. The fact that

## Resorts.

Radium Sulphur Springs

BATTLE IN LIQUOR SUNDAY

COLUMBUS (O.) Aug. 11.—In a head-on collision late this afternoon between two cars on the Lancaster division of the Scioto Valley Traction Company, Charles Graubach of Winchester, a passenger, was killed, and several others were severely injured.

MURDER INQUIRY SLOW.

(Associated Press Night Report.)

CLEVELAND, Aug. 11.—The family of William L. Rice, the millionaire attorney who was found murdered near his home last Friday, will not be called to testify at the inquest, the second session of which was held today. Neither will the coroner summon Mr. Rice's business associates, Judge E. J. Blandin and F. H. Ginn. Private detectives employed by the family have discarded other theories as to Rice's death and are now working on the supposition that he was killed by chicken thieves, probably foreigners, whom he met and attempted to prevent from carrying away their booty.

STOLEN SAFE, GUARD ARRESTED.

(Associated Press Night Report.)

CHETENYEN (Wyo.) Aug. 11.—No trace has thus far been found of the safe which was stolen from the United States army maneuvers camp on Crow Creek yesterday. Four members of the guard which had the safe in charge have been placed under arrest on suspicion of having been in collusion with robbers, who obtained \$500 in cash.

CHAMBERLAIN SELLER HELD.

(Associated Press Night Report.)

CHICAGO, Aug. 11.—Because of several recent cases of child molesters for selling Louisiana chameleons, Human Officer Brayne arrested Alex Toutous yesterday for selling the reptiles at a street corner. A charge of cruelty to animals was placed against him. If a conviction is obtained several other men will be arrested.

APPLE GROWERS STUDY.

(Associated Press Night Report.)

ST. LOUIS, Aug. 11.—The second and last day's session of the American Apple Growers' convention here was devoted to a technical discussion of the culture of orchards.

Fort Bliss, under guard of Private G. C. Hungate, Fenley induced the soldier to throw down his rifle, escape from the reservation, and by Mexico with him. Fenley has a brother on the police force in El Paso, who received a telephone call from his brother after he had escaped.

A reward is being offered for the arrest of Fenley, a member of the officers of the Twenty-fifth Regiment, who they intend to make an example of Hungate for deserting his post of duty.

TROUBLE IS SOLVABLE.

That's Opinion of Marquis de Ojeda in Regard to Spain's Squabble With the Vatican.

(Associated Press Night Report.)

PARIS, Aug. 11.—A dispatch to the Temps from Madrid quotes Marquis de Ojeda, the recently-recalled Spanish Ambassador to the Vatican, as endorsing the policy of Premier Canalejas, but, at the same time, denying that there existed any serious antagonism, and expressing the belief that solution of the trouble would be possible through a display of good will on both sides.

The Temps also reproduces from the Madrid Epoca a statement attributed to Premier Briand of the French republic, in which he said he had strongly advised King Alfonso against breaking with Rome, and is quoted as saying:

"We slid down hill farther than we intended. But for the clumsiness of the Vatican the papal nuncio would be still in Paris, and the Ambassador of France at Rome."

APPEAL TO ROMAN CATHOLICS.

(Associated Press Night Report.)

BOURDEAUX, Aug. 11.—Cardinal Andrieu issued an appeal today to the Catholics in which he condemned in the severest terms the instructions given in the public and primary and the secondary schools, citing the Holy See's instructions to the bishops of America in 1871.

# WINNER ARCHDALE.

**Ohio Stake With Prize Beauty.**

**Lower First Heat of Season in Feature.**

**To Try to Lower His Record Today.**

**SHERIDAN** (Dole of St. Louis) won the first heat of the season in the three-year-old stakes at the Motorama today. He won the race in 1:10.4, beating the other horses by a wide margin. The race was a feature of the day, and the crowd was large. Sheridan's record is 1:10.4, and he is expected to lower it today.

# THOMSON HAS FINE CHANCE TO WIN ALL-AROUND TITLE.

**HERE'S LUCK.**

The following table shows the marks of Martin Sheridan, the national all-around champion, and Fred C. Thomson of Occidental College, who is to compete in the national all-around meet at Chicago, tomorrow:

SHERIDAN.		THOMSON.	
Record.	Points.	Record.	Points.
10-2-5.	832	10-2-5.	832
5ft. 7in.	794	High jump	726 5ft. 3 1/2 in. (estm.)
3m. 43s.	797	The 880-yard walk	787
43ft. 1 1/2 in.	813	Putting 16-lb. shot	914
125ft. 10in.	769	Throwing 16-lb. hammer	879
107ft. 9in.	808	Pole vault	760
171-5s.	760	The 120-yard hurdles	1000
29ft. 1 1/2 in.	718	Throwing 56-lb. weight	480 25ft. (estimated)
20ft. 7 1/2 in.	720	Running broad jump	840
Gm. 5s.	464	1 mile run	754
Total	7585	Total	1913.

The national all-around championships of the A.A.U. are to be held tomorrow at Marshall Field, Chicago. Fred C. Thomson, the versatile athlete of Occidental College, is among the eighteen entries who will strive for the greatest honor to be had by an amateur athlete, and reports from Chicago indicate that the Tiger has an excellent chance to capture the laurel wreath.

Thomson's records are better than those of any of the other entries. If he is in his usual form and does not go up in the air in his first appearance in a big company, he should have little trouble in running up the largest score.

Only once before has a western man ever entered this meet. Dole of Stanford University entered in the competitions of 1897, but was unable to win first honors. He had to be contented with third place.

**SHERIDAN OUT.**

Martin Sheridan, of the Irish-American Athletic Club, the present holder of the championship, will not enter the meet tomorrow. There is no one else who seems at all likely to outdo Thomson. If the Tiger can do as well in this meet as he has in past performances he ought to be able to win it and to break Sheridan's record.

The only entry who seems at all likely to bother him is Elery H. Clark of Boston, who has won the championship twice—in 1897 and in 1903. His best record for the meet is 6318 1/2. He undoubtedly will have to do better than this to keep in sight of Thomson tomorrow.

The big Occidental athlete is in fine condition. In his last meet last spring held at Pomona, he won four first places, a second and a third, and at the end of the meet ran a lap of the 440-yard relay in 1:10. This was one of the most notable performances of any athlete in the country. His condition at this time was nearly perfect. He has written to friends within the last week, that his condition at present is better than it has ever been before. An injury caused the breaking of the meeting pole, which has been causing his friends considerable anxiety, has disappeared, and he does not believe it will bother him during the big meet. He has been training for the last month under the direction of Coach Monlaw of the University of Missouri, and Frederick Rane, athletic director of the Kansas City, Mo., Y.M.C.A. These men promise him to be in perfect condition and predict a victory for him.

**TO COACH FOOTBALL.**

MISSEOLA (Mont.) Aug. 11.—Lieut. Philson, Fourteenth United States Infantry, stationed at Fort Missoula, has been recalled from the maneuvers at American Lake, Wash., to assist in coaching the West Point football team during the coming season. He was captain of the cadets in 1908, and a substitute on the all-American team picked by Walter Camp.

**Bags Big Buck.**

Edward Allen, clerk at Hollenbeck Hotel, shot an eight-pound buck near Matilija Springs early this week. He returned from a vacation yesterday and brought the head of the animal with him.

**Toman Follows Allen.**

Jimmy Toman has finally accepted a position in the Cactus League down in Arizona and New Mexico, simply because the Coast League business would not give him a chance. It is a 10 to 1 bet that he will be asked to return before the season ends. There will probably be some changes next year in the manner of choosing umpires.

The Idaho Supreme Court yesterday held the direct primary law enacted by the last State Legislature to be constitutional. The court held that the provision of the law for voting for second choice candidates is mandatory. Under this ruling, in the event that no candidate receives a majority of the votes cast, the one receiving the greatest number of first and second choice votes becomes the nominee.

# LEBLANC LEADS AIRSHIP RACE.

**Completes Third Leg Ahead of Violent Storm.**

**Rough Sailing Encountered by All Aviators.**

**Military Officers Scout in Their Aeroplanes.**

(ASSOCIATED PRESS NIGHT REPORT.)

MEZIERES (France) Aug. 11.—M. Leblanc's good fortune in the cross-country aerial race continued on the third leg of the course today. Although he experienced great difficulty he was again the first to arrive at the post. The day's flight was from Nancy to this town, a distance of 99 miles. The leader's time was one hour, 55 min. 2 sec.

Leblanc, harrasing accidents, is practically sure of winning the race, although M. A. L. Legrand, who completed the first two laps in single flights, still have a chance.

Auburn reached here today two hours after Leblanc had landed. M. Lindpainter descended and abandoned the race at a point twelve miles from Nancy.

All of the aviators experienced the roughest sailing thus far encountered. Leblanc had the best luck. He came to the town just ahead of a violent storm, which caught his pursuers soon after the start. After leaving they a gust of wind blew away his chart and for a time he was lost in the thick haze. He finally recognized the Meuz River, which he followed over the towns of Mourmelon and Sedan.

Auburn was the next to get away, received the force of the storm and later ran into thick weather and lost his course.

Eventually he found himself over Chocoulers, where he got the direction for Metz.

M. Legrand, who started third, was caught in a heavy rain after he had been in the air a short time and was forced to alight.

The aviators started in the race of six stages from Paris to Troyes, Nancy, Mezieres, Douai, Amiens and Metz. The race is to be continued to participate in the local meetings which alternate with the racing days.

Several officers in military aeroplanes, one of which carried Gen. Maumery, effected reconnaissances in the vicinity of Nancy at daylight. They too, met bad weather and the pilot of the machine occupied by the general, lost his way and finally brought up at Metz, in the district of Loreine, Germany. From that point the return to Nancy was made.

# SA JOSE EVENTS.

**MATTEAWAN TWINS FUTURITY.**  
(ASSOCIATED PRESS NIGHT REPORT.)

SA JOSE, Aug. 11.—With some excellent performances against time, one heat of a pacing race, a futurity for 2-year-old trotters with a \$1450 stake, a breeders' futurity for 3-year-old pacers for a \$1300 purse, and a free-for-all trotting race for driving club members, the second day of the Pacific Coast Trotting Horse Breeders' Association meeting at the San Jose Driving Park track today was successful.

The entries in the big futurity made things lively for a while, but Matteawan, the big brown colt out of Cora Wickersham, by Athadon and piloted by G. L. Warlow, took two heats handsly. He covered his first in 2:24 1/2 and his second in 2:18 1/2.

Rena Directum, from Bonnie Direct, owned and driven by W. Parsons, took the free-for-all trot. She made one heat in 2:12 1/2.

Normono was all the class in the 2-year-old pace. He took the last three heats in 2:20, 2:18 and 2:21.

The Demon, owned by Mrs. S. V. Barstow of San Jose trotted to beat 2:30 1-4, and made 2:29 3-4.

Goblock was trotted by J. W. Marshall to beat 2:30 1-4, and made it in 2:24 1/2. Summary:

The 3-year-old pace, unfinished:  
Conqueror (Ward) ..... 1  
Little Dick (Verilhac) ..... 2  
Chiquita (Maben) ..... 3

**CHINESE ENCYCLOPEDIA.**

**VOLUMES OF SECRETS.**

Our Government cannot find an article in the Classic It Was Written Ages Ago.

After a grateful return, thanks for a complete set of encyclopaedia, the which agents have long markets of the American State.

The government is adopting the Chinese to have specimens of agriculture and the use of its agricultural department.

200 years ago, the holds in its of inestimable the agricultural the varieties of clovers upon the American empire was the in the preparation of the Chinese students of

is locked up in has been the of the de have been a year. China this country the new age, have leading into the new way, have the language, with partially familiar. Important por- tance the Chinese to the United States Ambassador

Walter T. and other country and other the country. They had not almost a man agree to inter- scientific

nature of the species heretofore un- known to them, but entirely helple- as far as securing in China the in- formation within reach of the Depart- ment of Agriculture at Washington.

So, with the spirit of conquest which carried the Chinese Secretary of Wilson's department into many stran- gles and unexpected adventures, it was determined to virtually carry the encyclopaedia back to China, have it translated by some scholar familiar with the classical language of the early Chinese, and the results of the re- sults back to the department at Washington for research and comparison with existing data.

From the works of a German stu- dent of oriental literature Mr. Swinegar carried the Chinese Secretary of the Chinese encyclopaedia containing descriptions of the grains and fruits of the United States had sent explorers into the interior of the of China. Photographs of these pages were then taken in the vaults of the Chinese government, and the photo- graphed pages, bound up in books of a dozen or so, were sent to the American Consul at Shanghai for interpreta- tion under the direction of the late Stephen P. Barchet, deputy consul- general and one of the most efficient linguists in the Empire.

It was with difficulty that any ade- quate translation of the passages could be secured, even in China. Shortly after the death of the Consul, Barchet died, and the department is again con- fronted with embarrassment in its ef- fort to secure the pages translated in English, even with the Chinese realm. The translations that were completed, with the photographed pages, were sent to the American Consul at Wash- ington. Here the description and data of 200 years ago contained in the encyclopaedia, re- tained in modern Chinese records, and with the original information se- cured by the American explorers.

The new and important facts bearing upon wild rice, dates, alfalfa, and all the varieties of clovers. Much important in- formation of the exploration of corn and the varieties of the cereal were found. This information, again in the form of specimens of the field, has been the means of adding new specimens to the explorers' ar- chives, and the information of great value when developed for use by the farmers of America.

The great encyclopaedia, which the Chinese government is now displaying to the public for the first time is considered one of the literary treasures of the world. It is the only known copy of the encyclopaedia in the world. It is in the country was in the British Mu- seum, secured in 1817, and which is in the possession of the British Li- brary, and a small portion of which is exhibited in the large case given to it by the Chinese government through its special ambassador, Tang Shou-Yi, who was sent to the United States in 1898 to thank to President Roosevelt for the remission of a portion of the "Boxer Indemnity."

The United States is now believed to possess the only set of the complete encyclopaedia in any of the American or European countries. Since it was secured in 1817, the Chinese Li- brary Chinese students from Columbia and other colleges and from the Chinese legation at Washington and American experts in Oriental lan- guages from the Legation at Wash- ington have from time to time re- ference to its pages but have been unable to make any general translations from it. The Chinese government, the Department of Agriculture in the work it is trying to do.

**JEWEL ROBBER.**

(Continued from Page 1.)

been equaled. The robbers rifled safe, which was already open, obtaining in cash. Next they gathered up about \$700 in jewelry, which ended by searching Pearson and leaving him of \$86 in cash.

When they were released, they had long start on the officers before friends of the bound and gagged man managed to come in and release them.

Clever questioning of professional criminals and long watches for a man who answered the description of the robber, led the officers to discover the light fact that such a person lives in rooms on North Main street, within block of the store which was robbed.

Without delay the officers became suspicious, the detectives learned a few facts which aided them in the chase for the man wanted. They brought him, they were forced to trail him, early men of irreproachable record who were acquainted with the flames of being aware of his record as a criminal.

The detectives are now trying to locate Verath's room in this city, where he has been hiding out since his exclusive family hotel. There are indications that he has a room in hotel at one of the seaside towns, and these are being followed.

**HAS ROOM IN HOTEL.**

The detective issued an official quest through the newspapers last night for all persons who have knowledge of Peter Vorrath's last room place or place of hiding, to report them, and they shall receive protection if the information be kept secret.

Besides pictures already published they are prepared to issue 5000 letters and pictured bulletins, to be sent all over the coast land, to inform America to obtain the past record of a man whom they believe is responsible for many hitherto unexplained crimes. It is known that he recently had loot in his possession obtained a Seattle robbery, but the officers do not know whether it was shipped here or not.

When questioned at length, Vorrath showed a ready wit and nerves set for any ordeal. He made no confession, but refused to defend himself. He told the officers that he influential friends, and would send George Pearson, who has offices in Puget Sound, to defend him. The officer was allowed to consult with lawyer, but has not determined definitely his line of defense.

Vorrath 27 years old, looks like Filipino and dresses like a disguised continental. He says he born in Siam or a German father, but claims to be American, speaks the acquiring language, and asserts he has traveled around the world, and is in familiar with capitals of Europe, Asia and Africa.

A search is being made for the mess linguist's accomplice, who was shot by a detective in the fight, eight, eight inches in height, am built, light complexion, and of mixed blood.

Vorrath probably assumed aliases in his travels. One of his recent was the name of P. Marty could pass as a native of several countries, and might be recognized of all classes. Detectives believe they have unraveled his life, and they will be able to make known the first crime of the recent years. A formal complaint filed this morning.

CALL MEETING ON BRIDGE SITE: HOPE TO DECIDE LOCATION BY 2 O'CLOCK.

Decision of the Superior Court in the case involving Value of Annandale Property Not Satisfactory to the Directors of the Holding Company—Day Dreams of Wealth.

Decision of the Superior Court in the case involving Value of Annandale Property Not Satisfactory to the Directors of the Holding Company—Day Dreams of Wealth.

The object of the joint meeting is to definitely decide upon the most satisfactory site for the proposed bridge. It is hoped that at that time the Board of Trade and City Council will be able to get together and decide upon the most satisfactory site for the proposed bridge.

The meeting last night was held at the Pasadena Hotel. The directors of the holding company, who are in favor of the proposed bridge, and the city council, who are in favor of the proposed bridge, met to discuss the matter.

McCann stated that he is in favor of the proposed bridge. He said that the bridge would be a great benefit to the city and that he would like to see it built.

Another point in favor of the proposed bridge, which was brought out at the meeting, was that it would be a great benefit to the city and that it would be a great benefit to the city.

The decision of Judge Monroe of the Superior Court in the case of Campbell Johnson against the Pasadena Golf Club Association, holding company of the links and lands of the Annandale Country Club, is not satisfactory to the directors of the holding company.

wealth. Some one has advised them that the much-depleted jimson weed has great curative qualities and that certain drugs are made with the bark of a tree or something of that kind which makes the jimson weed worth lots of money. In that particular part of the city, the ancient time was known as the great poppy fields, there are many tons of jimson weed only waiting for some industrious person to cut and transport it. It is believed large quantities of the weed will be marketed this year. It is also said that several large stalks which are especially valuable will be taken to Long Beach on Pasadena Picnic Day for exhibition purposes.

over the side. There was general rejoicing when the wanderers returned to Avalon, and today Mrs. Saut, with whom they are staying, is celebrating her seventy-second birthday anniversary by rejoicing over the lost who are found.

LOSES MEMORY ON THE SHORE.

WOMAN IN SURF FORGETS HER STREET ADDRESS.

Officer Aids Her and, After a Long Search, She Recognizes the Location of Her Apartments—Plans for Trolley Station to Be Ready for Bids Soon.

LONG BEACH, Aug. 11.—A peculiar case of lapse of memory that of Miss Minerva Shriver, who arrived in Long Beach yesterday from San Antonio, Tex.

Mrs. Shriver and daughter, Mrs. Jessie Silvas, entered the surf in front of the bath-house this morning for a plunge. Suddenly the mind of Mrs. Shriver became a blank. She could remember nothing, not even her name.

Special Officer McIntosh assisted the aged woman in the search for her daughter, whom she believed was drowned, and also used every effort to assist her in locating her apartments, the address or the name of which she could not remember. The officer, in company with the woman, took an exhaustive stroll about town and suddenly Mrs. Shriver recognized a place on Fifth street as that of her quarters. There she found that her daughter had returned from the beach.

Residents of the Signal Hill section of the city say they are going to regard the water company's plan to build a reservoir on the Signal Hill section of the city as a great benefit to the city.

While it is highly improper to bathe in a public reservoir of drinking water, the greatest crime in the eyes of the folks in that end of town is the fact that the youngsters, from the apartment houses of the Signal Hill section, would not pass muster for sanitary excellence before entering the pool. The water company has threatened to close the reservoir to the boys.

Plans are being prepared by Architect Charles Shattuck of Los Angeles for the new depot of the Pacific Electric, which is to be built on the beach east of the pier and north of the Auditorium. According to an outline of the plans, the building will occupy an entire block 135x175 feet, and will be a two-story building of reinforced concrete. The first story will be divided into two parts, one for the ticket office and the other for the waiting room. The second story will be a large open space for the use of the passengers.

Improvements in View for Recreation Place of Pomona—Elks May Have Increase. POMONA, Aug. 11.—The City Trustees have accepted plans drawn by Architect Robert H. Orr for a lodge for use as a dwelling by the City Park Superintendent. The structure will be erected at the head of Huntington boulevard, just northeast of the Elks Park tract, and in the south-west part of the park. The building will be commodiously arranged around a central hall, and will be an attractive structure in the landscape.

Station Master Vignes of the Pacific Electric building in Los Angeles took a vacation today, and came to the beach for a swim. During a bath he made a high and mighty boast that he would be a great swimmer. When he came to the surface he received a verbal castigation from an Irish woman who accused him of sitting on her head. Vignes denied that he was sitting on her head, whereupon the injured one seized hold of the cement guard-rail and, with a determined look, began to pull on it. The woman, who was a member of the Elks club, finally tempers cooled off, and after Vignes had assured the injured one that he was really a swimmer, and that he was a member of the Elks club, the incident ended, and Vignes continued his bath.

The Chamber of Commerce today ordered an issue of 120,000 booklets for advertising purposes, which will be distributed by the Salt Lake Road. The booklet will contain twenty-four Long Beach views and five special articles on the city, written by local men familiar with conditions of which they will treat.

After an automobile chase of half a mile, enthusiastic members of the Elks Redeo Club, at noon today, captured L. E. Fordham, one of the club members, and his bride of a few minutes. The chase was started when the car was seen taking them to Los Angeles, transferred them to another car, especially decorated for the occasion, and made a relay tour of the city, tooting horns and pounding tin cans, while their captives, who were finally released, and returned to their own car, which was also decorated with the Elks Redeo fanfare, and allowed to continue their journey.

Rev. Waldo Dudley, a retired Baptist minister, who was stricken with apoplexy yesterday, died this morning after a long illness. Mr. Dudley was a native of Massachusetts and 58 years of age. He had lived in California fifteen years, and in Long Beach five years. He leaves a widow and two children.

HUNTINGTON PARK, Aug. 11.—A movement is on foot to open Randolph

Great Values Men's Trousers Now

street to the city limits of Los Angeles. Most of the right-of-way has been secured, and an ordinance for opening and improving this street passed the first reading before the City Trustees last evening. The street will be a great benefit to the city, as it will provide a direct route from the city center to the Huntington Park section.

Concrete work on the huge stack to be erected at the Edison plant on the Signal Hill section of the city is well advanced. The stack will be one of the largest structures in Southern California, being 18 feet in diameter and 150 feet high. The work is being done by a Los Angeles firm.

The Arizona Society of this city held its annual picnic today at Bixby Park. About fifty were present. There was no formal program.

FOR BETTER PARK. Improvements in View for Recreation Place of Pomona—Elks May Have Increase. POMONA, Aug. 11.—The City Trustees have accepted plans drawn by Architect Robert H. Orr for a lodge for use as a dwelling by the City Park Superintendent. The structure will be erected at the head of Huntington boulevard, just northeast of the Elks Park tract, and in the south-west part of the park. The building will be commodiously arranged around a central hall, and will be an attractive structure in the landscape.

MAN SHOT BY HUNTER.

Long Gash in Forehead Because He is Mistaken for Deer.

(SPECIAL CORRESPONDENCE.) SAN BERNARDINO, Aug. 11.—Winfield Scott of North Arrowhead avenue just missed death in the mountains today, when he was mistaken for a deer by a party of hunters.

They opened fire on the spot where he was pushing his way through the brush on the mountain. A rain of bullets poured about him.

One of the leaden missiles cut a long red gash in his forehead. He dropped to the ground and remained motionless until the Nimrods came within halting distance searching for their "prey," when they were horrified to hear him call a warning, and to find him red with blood pouring from his wound.

several weeks ago, when, crazed by drink, he ran amok at Matilla, was set for tomorrow. The man appears sane enough now that the liquor is out of his head. He says he will ask for a jury trial unless the verdict of the insanity commission is against him, in which case he will fight hard for his freedom.

A marriage license has been granted to Henry A. Darling, aged 23, Sumner, and Mrs. Sadie E. Willard, 21, Camarillo, this county.

Mrs. Elvenera Grimes, a former resident of this county, died in Brainerd, Imperial county, July 31, aged 51. She was the widow of Brice Grimes, a pioneer of this county.

Arrowhead Hot Springs baths cure Bright's disease and diabetes.

SANTA ANA. SHAFT FLINGS, CAUSES DEATH.

FATAL ACCIDENT OCCURS AT SUGAR FACTORY.

While Placing a Belt on a Pulley in the Lima Kiln Room the Victim is Jerked from His Feet, Whirled Three Times Around and Thrown Twenty Feet.

SANTA ANA, Aug. 11.—His clothing caught in a revolving shaft, James M. Miller received fatal injuries this morning. He was placing a belt on a pulley in the Lima kiln room of the Southern California Sugar Company plant, when he was jerked from his feet and whirled three times around a shaft. Stripped of his clothing, he was flung twenty feet through the air. He was caught in the arms of a fellow employe, J. A. Lerch, and his fall ended in death.

He was removed to the Santa Ana Hospital, where he died a few hours later. He lived at No. 402 East Walnut street. He leaves a widow and child.

LAWSUITS TRANSFERRED.

Judge West today ordered that the Superior Court case of the Santa Ana River Development Company and others against James Long and others be transferred to Los Angeles for trial. His ruling establishes that Los Angeles is "the nearest and most accessible county seat" in reference to Santa Ana.

The litigants in the case stipulated that there should be a change of venue, Judge West being dissatisfied by the play of a stockholder in one of the plaintiff irrigation corporations. The defendants wanted to go to Riverside for trial. The plaintiffs favored Los Angeles, and argued that under the law the case must be sent to the "nearest and most accessible county seat."

The action was brought by Orange county irrigation interests to compel a long list of defendants to quit using water on lands that the plaintiffs declare are non-irrigable, which lands lie in Riverside county.

According to the report of County Auditor Lester, there are 14,200 head of sheep in Orange county; assessed at \$2 a head, and 1,200 lambs, assessed at 50 cents per head.

The City Trustees will go to Los Angeles to look at a number of reservoirs with a view to getting pointers. Santa Ana expects to build a new reservoir for its water supply.

Marriage licenses were issued to: Edna Taft, 18, both of Los Angeles; George E. McKinnley, 21, and Frances Willard Soules, 18, both of Los Angeles; Franklin L. Cline, 23, and Ethel L. Love, 18, both of Los Angeles; Frank L. Gay, 20, and Winifred McGuire, 22, both of Los Angeles; Edith Karver, 22, and Ada L. Hoffner, 22, both of Los Angeles; Bee Melton, 22, and Lena Kasteroff, 20, both of Los Angeles.

"Any special design?" asked the engraver.

"Yes, sir," replied the caller. "In the upper left-hand corner I want a copy out of Patrick Henry making his memorable speech, and in distinct letters, under the cut, his soul-inspiring words, 'Give me liberty or give me death.' You see?" he added, handing to the engraver, "I'm a

THINK TROUT ELECTROCUTED.

BUSINESS MEN REPORT ON FINDING DEAD FISH.

Say That After a Severe Electrical Storm the Condition Was Noted on Deep Creek—Discovery of Gold Nugget in Lytle Creek Causes Some Excitement.

SAN BERNARDINO, Aug. 11.—Many thousands of trout in Deep Creek have been electrocuted, George Boren and J. W. Catlock, well-known business men of this city, returned this forenoon from the creek with the news.

They went fishing in the creek two weeks ago. The first few days their luck was of the best. A week ago a severe electrical storm played havoc with the section, several immense trees by the creek miles apart being struck by thunderbolts and shattered.

On the following day the fishermen were surprised to find the fishing pools filled with dead trout, which in instances fairly covered the surface of the water. This condition was traced for miles, and the fishers are positive that during the thunderstorm the stream became highly charged with electricity.

CLUTCHES A NUGGET.

George Lawrence went fishing in the South Fork of Lytle Creek yesterday, and returned this morning with a nugget of gold valued at \$15. The fisherman's find was made by accident. As he was picking his way across a pool he slipped and, going to his knees, his hands were submerged in the water and gravel of the pool. Spasmodically he clutched what proved to be the nugget. He related at his find he spent the balance of the day poking in the granite boulders in which the waters of the creek had collected, but no further reward greeted his efforts. Lytle Creek is one of the noted places of this section, and nuggets of considerable value are frequently found there.

KNOCKED OVER BY AUTO.

Dr. I. W. Hamlett of this city had a narrow miss last night from serious injury in a collision with an automobile, while driving to town from Colton in his carriage. The physician was hugging the right side of the road, driving his blooded trotter, inaudibly realizing that the automobile, which was being driven at terrific speed, was crowding to the right side of the road. Dr. Hamlett prepared to leap when the machine flashed past, grasping his buggy, which was completely overturned, and he was hurled into the air. He landed on his back, and his fall ended in death.

He was removed to the Santa Ana Hospital, where he died a few hours later. He lived at No. 402 East Walnut street. He leaves a widow and child.

LAWSUITS TRANSFERRED.

Judge West today ordered that the Superior Court case of the Santa Ana River Development Company and others against James Long and others be transferred to Los Angeles for trial. His ruling establishes that Los Angeles is "the nearest and most accessible county seat" in reference to Santa Ana.

The litigants in the case stipulated that there should be a change of venue, Judge West being dissatisfied by the play of a stockholder in one of the plaintiff irrigation corporations. The defendants wanted to go to Riverside for trial. The plaintiffs favored Los Angeles, and argued that under the law the case must be sent to the "nearest and most accessible county seat."

The action was brought by Orange county irrigation interests to compel a long list of defendants to quit using water on lands that the plaintiffs declare are non-irrigable, which lands lie in Riverside county.

According to the report of County Auditor Lester, there are 14,200 head of sheep in Orange county; assessed at \$2 a head, and 1,200 lambs, assessed at 50 cents per head.

The City Trustees will go to Los Angeles to look at a number of reservoirs with a view to getting pointers. Santa Ana expects to build a new reservoir for its water supply.

Marriage licenses were issued to: Edna Taft, 18, both of Los Angeles; George E. McKinnley, 21, and Frances Willard Soules, 18, both of Los Angeles; Franklin L. Cline, 23, and Ethel L. Love, 18, both of Los Angeles; Frank L. Gay, 20, and Winifred McGuire, 22, both of Los Angeles; Edith Karver, 22, and Ada L. ## INDIANS SEE ADVANTAGES.

Plans of Bureau Are Better Understood.

Demonstrations Convert the Yumas Rapidly.

Irrigation Opposition Now Fading Away.

(SPECIAL CORRESPONDENCE OF THE TIMES.)

**YUMA, Ariz., Aug. 11.**—There seems to be a weakening of the opposition expressed by Yuma Indians to plans for their benefit made by the Indian Bureau, assisted by the Reclamation Service. A sample tract of forty acres has been cleared by the Indians and has been planted in pumpkins, corn, melons and beans, irrigated by water diverted at the Laguna dam.

Only four or five Indians at first were at all favorable to the idea, but "word" has been going around as success of the government plans is demonstrated to the redskins. The Indians have raised a considerable fund to be used in sending a protesting delegation back to Washington, but it now seems probable that no protest will be made and that the Yumas will accept the lands allotted them, as well as the water that will be freely given for irrigation.

In the northern part of Yuma county there seems to be a similar feeling of unrest among the Mohave Indians, who want to know what has become of the cash received by the government from the sale of the Parker town-site lots. This money, they claim for themselves, and believe should be distributed among them at once. They also want more water, not being contented with assurance from the agent that a pumping plant will soon be in operation capable of irrigating 12,000 acres of Indian land.

They have also been informed that when this irrigating water is received, the reservation will be cut up so that each Indian of whatever age shall receive five acres. This allotment, according to the aboriginal idea, is much too small, the same contention at first raised by the Yumas, though it will mean each Indian family will have about thirty acres for tillage. So Chief Mahitaba, head of the tribe, is to be sent to Washington to plead with the Great Father.

**UGLY SHOOTING AFFAIR.**

**BAR KEEPER IS KILLED.**

**PRESCOTT, Ariz., Aug. 11.**—At Winslow Tuesday was an ugly shooting affair, in which R. W. Johnson was shot and killed by Jacob Miller, a bartender.

The affair took place in a saloon, though not the one in which Miller was employed, the victim being a rival bartender. Only one bullet was fired, passing under the heart and growing immediately fatal. Miller has been placed in jail in Holbrook and will be tried for murder. One result of the shooting is a notice served generally on the populace of Winslow that any man found carrying a gun will be given a jail sentence, without the alternative of a fine.

Jim Smith, a hobo, has been placed in the County Jail in Prescott with his left hand almost shot to pieces. He was brought from Ash Fork, where he was caught in the act of robbing a cash register in a butcher shop. The ringing of the bell of the machine, during the morning, aroused E. Henderson, an employee, who quickly and accurately fired at the burglar, striking his hand.

Two Indian squaws of the Apache-Mohave tribe have been sent from Camp Verde to Los Angeles, to take pleasure treatment for injuries received from a hydrophobic skunk. One of the squaws, 59 years old, bitten on the hand, fails to realize her serious condition and needs vehement objection to being taken from her happy home.

Frank Spence, whose death sentence was commuted to life imprisonment, has been removed from the County Jail to the Territorial Penitentiary at Florence. Spence is a violent man, well known to all the other residents of this section, where he has lived for half of his sixty years of life.

Torrential rains have continued throughout Northern Arizona during the past week, doing much damage to roads and renewing railroad washouts that had been repaired from the week before.

It has been determined that Arizona shall have the national sanatorium for tubercular members of the Order of Knights of Columbus.

**ARIZONA POLITICS.**

**LABOR PARTY UNPOPULAR.**

**TUCSON, Ariz., Aug. 11.**—The union men of Tucson, included within about twenty-five local unions, have concluded to have nothing whatever to do with the labor party lately organized in Phoenix by the Western Federation of Labor. A meeting of delegates of local unions lately held in the city determined that, by far, the better policy for the laboring man was to permit the union members to vote according to their preferences.

It is understood that a new daily paper is to be started in Tucson, especially to voice the sentiments of the labor unions of the city, and that John T. Hughes has been sent to Los Angeles to purchase a plant. It is understood that the prohibition of Arizona will in a year fail to put candidates in the field, though political activity has been usual in the past as a matter of protest, without any expectation of winning the election.

Despite private announcement that the census will show not over 15,000 population for Tucson, the example of the latest directory claims that the city has a minimum population of 20,000.

Mr. Sue Thompson of No. 706 North Stone avenue, has defied the city government and successfully. The city caught a few feet from the front of her lot, but when the women started evening the street, they found Mrs. Thompson on the ground, entrenched in a rocking chair. She demanded a job in advance before the land was touched. She is still holding the fort.

Telegraphic communication between Tucson and Calabasas has just been established by the Western Union. Last week at the Jack Rabbit mine, south of Casa Grande, a furious cyclone tore down all the buildings in the camp, leaving nothing but masses of wreckage. The storm lasted only about twenty minutes and seemed to be local.

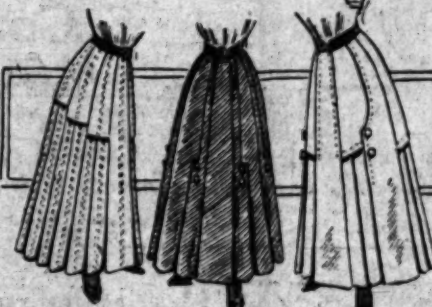

While Sonora imports beans from the United States, the State is a heavy exporter of garbanzos, a kind of pea very much esteemed in Spain. Superintendent Rynning of the Territorial Penitentiary at Florence has organized a baseball team among the inmates and has laid out a diamond for the walls of the prison. As a

Large Cluster of Puffs, good quality hair, all shades at \$3.50

They have also been informed that when this irrigating water is received, the reservation will be cut up so that each Indian of whatever age shall receive five acres. This allotment, according to the aboriginal idea, is much too small, the same contention at first raised by the Yumas, though it will mean each Indian family will have about thirty acres for tillage. So Chief Mahitaba, head of the tribe, is to be sent to Washington to plead with the Great Father.

Jim Smith, a hobo, has been placed in the County Jail in Prescott with his left hand almost shot to pieces. He was brought from Ash Fork, where he was caught in the act of robbing a cash register in a butcher shop. The ringing of the bell of the machine, during the morning, aroused E. Henderson, an employee, who quickly and accurately fired at the burglar, striking his hand.

Two Indian squaws of the Apache-Mohave tribe have been sent from Camp Verde to Los Angeles, to take pleasure treatment for injuries received from a hydrophobic skunk. One of the squaws, 59 years old, bitten on the hand, fails to realize her serious condition and needs vehement objection to being taken from her happy home.

Frank Spence, whose death sentence was commuted to life imprisonment, has been removed from the County Jail to the Territorial Penitentiary at Florence. Spence is a violent man, well known to all the other residents of this section, where he has lived for half of his sixty years of life.

Torrential rains have continued throughout Northern Arizona during the past week, doing much damage to roads and renewing railroad washouts that had been repaired from the week before.

It has been determined that Arizona shall have the national sanatorium for tubercular members of the Order of Knights of Columbus.

**ARIZONA POLITICS.**

**LABOR PARTY UNPOPULAR.**

**TUCSON, Ariz., Aug. 11.**—The union men of Tucson, included within about twenty-five local unions, have concluded to have nothing whatever to do with the labor party lately organized in Phoenix by the Western Federation of Labor. A meeting of delegates of local unions lately held in the city determined that, by far, the better policy for the laboring man was to permit the union members to vote according to their preferences.

It is understood that a new daily paper is to be started in Tucson, especially to voice the sentiments of the labor unions of the city, and that John T. Hughes has been sent to Los Angeles to purchase a plant. It is understood that the prohibition of Arizona will in a year fail to put candidates in the field, though political activity has been usual in the past as a matter of protest, without any expectation of winning the election.

Despite private announcement that the census will show not over 15,000 population for Tucson, the example of the latest directory claims that the city has a minimum population of 20,000.

Mr. Sue Thompson of No. 706 North Stone avenue, has defied the city government and successfully. The city caught a few feet from the front of her lot, but when the women started evening the street, they found Mrs. Thompson on the ground, entrenched in a rocking chair. She demanded a job in advance before the land was touched. She is still holding the fort.

Telegraphic communication between Tucson and Calabasas has just been established by the Western Union. Last week at the Jack Rabbit mine, south of Casa Grande, a furious cyclone tore down all the buildings in the camp, leaving nothing but masses of wreckage. The storm lasted only about twenty minutes and seemed to be local.

While Sonora imports beans from the United States, the State is a heavy exporter of garbanzos, a kind of pea very much esteemed in Spain. Superintendent Rynning of the Territorial Penitentiary at Florence has organized a baseball team among the inmates and has laid out a diamond for the walls of the prison. As a

reward for good behavior a large number of prisoners were permitted to witness a late game. The prison team won from Florence.

George H. Nolte, president of the Calumet and Yaqui River Copper Company, died last week near Sonora, of appendicitis.

A picnic was given at Hereford about 100 cattlemen and their friends, the host being George Pattullo, the well-known writer, who is in the Southwest hunting local color. At midday was served a barbecue, and the afternoon and evening were spent in cowboy sports and in dancing.

Rev. Ernest M. Bullock of Boston has been called to the pastorate of the Episcopal Church in Tucson.

**SAN JOAQUIN VALLEY.**

**CHILD'S PRANK COSTS A LIFE.**

**PLAYMATE LAUGHS AS INFANT RESISTS PEBBLES.**

**Baby Is Fed With Dirt and Stones and Efforts of Physicians to Save It Are Futile—Porterville Merchants Will Build Cannery at Own Expense.**

**PORTERVILLE, Aug. 10.**—Fed sand, pebbles and bits of dirt by a 3-year-old playmate, Estella, the 8-month-old daughter of Mr. and Mrs. Fred Brooks of Hot Springs, died at a local hospital today, after hours of intense suffering.

The infant was taken very ill late last evening, and her parents investigating the malady, found that, utterly ignorant of the consequences, a playmate had been feeding dirt and stones to the infant, its struggles to avoid eating the stuff being a source of amusement to her tormentor.

Several physicians were called in consultation at the hospital this morning, but the child failed to respond to treatment.

**ARTESIAN WELL.**

Local investors, who recently purchased a large block of land in the Delano district, have brought in for their tract an artesian well, which is spouting more than sixty inches of water. Thousands of acres of fine land will be added to the Delano district if a similar well can be brought in. The well in question is 527 feet deep and during its course, traverses more than twelve strata of water-bearing sand.

**TO BUILD CANNERY.**

Advised that the two largest associations of California canners would not be interested in the erection and equipment here of a cannery to handle the local production of fruits and vegetables, the members of the Merchants' Association, at their meeting last night, decided to build a plant at their own expense, the stock for the proposed company being subscribed by the members of the association.

According to the plan, a plant to cost about \$100,000 will be constructed and given rent free for three years to any company which will undertake to

## BOGUS COINS ARE WELL MADE.

SUSPECTED MAN ARRESTED BY OFFICERS.

Counterfeits So True That Experts Are Said to Have Been Deceived. Bear Date of 1894 and Many Fake Silver Dollars Have Been Circulated. House Burns.

(SPECIAL CORRESPONDENCE OF THE TIMES.)

**PORTERVILLE, Aug. 11.**—Further complaints of the circulation of counterfeit silver money in this city were made to the police officers today, and a handful of bogus coins was turned in as evidence that shavers of the queer are still at work in this section.

The coins most assiduously circulated in this city at present are imitation silver dollars bearing the date of 1894. They are of excellent workmanship, heavily plated with silver, and have deceived some of the experienced handlers of coins.

It is within the past ten days that secret service officers arrested in the White River country a man said to have been implicated in the counterfeiting operations here, although they refused to reveal the identity of the suspect. Local officers asserted today that secret service men are still at work on the cases, in the hope of locating the counterfeiters.

**EXPLODING STOVE FIRES HOUSE.**

The explosion of a gasoline stove set fire to the home of Silas Lova, in the Poplar district, this morning. In less than an hour the building was a heap of ashes. So rapidly did the flames spread from room to room that

The loss will be about \$3000, with no insurance.

Mrs. Lova fortunately was not in the kitchen at the time, but attracted by the explosion she rushed to the room, which was a roaring furnace. Owing to its tinder-like dryness the blaze spread with inconceivable rapidity to all portions of the building.

**EQUIPPING SCHOOLORS.**

Contracts were let by the School Trustees today for the equipment of two rooms at the High School building. They are to be used for domestic science and manual training courses.

The room to be used for domestic science will be in all respects a model kitchen. Twenty gas ranges are to be installed with modern sinks, dish closets and a complete equipment of cooking utensils. There will be also one electric range.

Benches are to be placed in the manual training room for the first year. It being the plan to teach the students only the rudiments of the building trades.

**BITTEN BY FALSE TEETH.**

George S. Helget had the remarkable experience last evening of being bitten by a set of false teeth. The remarkable part is that the teeth were unattached to any jaws, human or otherwise.

Some one dropped the teeth on the lawn of the Helget home during the evening. Later on Mr. Helget's slumbers were disturbed by cats. He got out of bed armed with a shotgun and in his bare feet, to run across the lawn to get a shot at the felines. In doing so he stepped on the teeth, and the result was painful.

**DR. HIGGINS ILL.**

Dr. O. C. Higgins, one of the oldest practitioners in this city, is seriously ill at his home on Olive street, from ptomaine poisoning, caused by eating canned fish at luncheon yesterday. Prompt action by physicians saved his life.

**CHANGES AT SCHOOL.**

Many changes have been ordered in the equipment of the Indian school at

yesterday from the Indian department at Washington to that effect.

Plans were sent for the erection of a five-room bungalow for the occupancy of the boys farmer. A new schoolhouse is to be constructed and a hall built which is to be used for general gatherings of all sorts.

The old schoolroom is to be turned over to the Indians for a church, nearly all of them being devout members of the Catholic Church.

**MUST LAY PIPES.**

Orders have been issued to all public service corporations with rights of way for their service lines, either above or below the level of the streets, to make preparation to properly care for them prior to the extensive system of street paving shortly to be inaugurated. All the city owns the waterworks, these pipes will be properly taken care of.

The telephone and power companies will be required to put their wires underground in trenches.

Leonard Block, superintendent of road signs for the Auto Club of Southern California, is here today from Los Angeles, getting further memberships in the city.

Branches will be placed through the city, from the main road from Los Angeles to San Francisco. Local autoists had formed a club for the work, but later transferred their activity to affiliation with the State organization.

**LIMITS VACATIONS.**

**SCHOOL BOARD ACTS.**

(SPECIAL CORRESPONDENCE OF THE TIMES.)

**BAKERFIELD, Aug. 11.**—A time limit has been set to the vacations of Bakerfield people sojourning at the summer resorts by the Board of Education in the form of an announcement that the city schools will open September 12.

Local members of the National Guard are booming Lieut. Col. A. S. Criss to succeed Col. Seymore, resigned, in the election to be held by the Second Regiment of Infantry at Sacramento on the 12th inst. Criss' chief opponent is Maj. Bond of the Third Division, in whose behalf an active

campaign is being conducted. The campaign is being conducted by the National Guard Association of California.

**EXTENT APPALLING.**

**LOSS OF LIFE.**

The devastation caused by the recent flood in the Sacramento valley is appalling. Whole communities have been washed away.

Many of the victims of the flood are now being cared for in the hospitals of the city.

The National Guard Association of California is now in the city, and is holding a meeting at the city hall.

The National Guard Association of California is now in the city, and is holding a meeting at the city hall.
